

Normal price list for district heating delivery in Vingåker

Prices are valid from 2007-01-01 until further notice

District heating price for smaller housing units (prices include VAT)

Fixed price: SEK 2,625 per year
SEK 662/MWh (SEK 0.662/KWh)

These prices are valid for smaller housing units (one or two family housing units owned by individuals and for business housing units whose subscription effect is below 50 MWh).

District heating price for multiple housing (prices exclude VAT)

From 0-225 kW Fixed fee: SEK 4,300 per
Effect fee: SEK 645/kW/year
Energy price: SEK 280/MWh

From 226 kW and up Fixed fee: SEK 7,500 per year
Effect fee: SEK 548/kW/year
Energy price: SEK 280/MWh

The subscription effect is the calculated effect requirement of the housing unit and is determined by the category number method based on the corrected normal year usage. If the agreement includes several delivery points (meters) an addition of SEK 2,800 and 6,000 per year in fixed fee is added for each additional delivery points outside the first.

Notes

1 MWh – 1,000 KWh

The price for multiple housing units is divided into two price components.

Measurement

The energy used is measured by the supplier's meter

Billing

Billing will be done monthly after delivery.

Bill will be overdue 30 days after issue date. Late interest charges will then be added in accordance with the interest law.

Other

Rindi Vingåker AB follows the general agreement terms and conditions for delivery of district heating for industrial use issued by Svensk Fjärrvärme (Swedish District Heating Association) and Värmemarknadskommittén VMK, and the general agreement terms and conditions for delivery of district heating for private use issued by Svensk Fjärrvärme and Konsumentverket (The Swedish Consumer Agency).

Terms and conditions for connection to the district heating grid are issued in accordance with separate agreements.
